**Staff:** Marsha Reilly (786-7135); Steve Smith (786-7178)

**Background:**

Statute requires state agencies to submit reports to the Governor and the Legislature on the progress, status, or effectiveness of various programs. Many of these reports are submitted annually or on a regular basis, while others may be a one-time requirement to complete a study and make recommendations.

**Summary of Engrossed Substitute Bill:**

Twenty-one reports are eliminated and 12 reports are required to be submitted biennially, rather than annually. (See table of eliminated and reduced frequency of reports for detail.) In addition, requirements regarding the production of all legislative reports, as well as annual and biennial reports, in an electronic format-only, are specified. Notice of these reports will be provided to the Legislature and the Office of the Governor, and the reports will be available on the Legislature's Internet home page in an easily accessible manner.

**EFFECT OF SENATE AMENDMENT(S):**

Reinstates the foster home turnover, causes, and recommendations, the effectiveness of early childhood education programs, and the findings of longitudinal studies of early childhood education assistance reports.

**Appropriation:** None.

**Fiscal Note:** Available.

**Effective Date:** The bill contains an emergency clause and takes effect immediately.

**Staff Summary of Public Testimony:**

(In support) Reducing the number of reports created was part of a process that the Governor engaged agencies in, to look for ways to streamline administrative costs. Agencies were asked to provide a list of reports that they felt were of minimal value, were duplicative, or ones that could be phased to a longer period between reports with no impact. The bill does not remove the obligations for agencies to collect the data; in many cases they are providing the data but in other formats or reports, but there are costs associated with producing these reports – both in staff time and in material costs. As we are shrinking resources, we want to focus our priorities on providing direct services within those agencies. The real savings is in

staff time, and this is where attention should be directed. The bill is necessary to allow many agencies to legally stop printing on paper. The Department of Revenue isn't statutorily required to submit reports in paper, whereas other agencies do have statutory requirements that would require a bill to change it.

**Persons Testifying:** (In support) Brian Peyton, Department of Health; and Julie Murray, Office of Financial Management.

**Persons Signed In To Testify But Not Testifying:** None.
